

Town of Marshville, North Carolina
FY 2023-2024 Annual Budget Message

July 1, 2023

§ 159-11. Preparation and submission of budget and budget message.

(a) ...

(b) *The budget, together with a budget message, shall be submitted to the governing board not later than June 1. The budget and budget message should, but need not, be submitted at a formal meeting of the board. The budget message should contain a concise explanation of the governmental goals fixed by the budget for the budget year, should explain important features of the activities anticipated in the budget, should set forth the reasons for stated changes from the previous year in program goals, programs, and appropriation levels, and should explain any major changes in fiscal policy.*

(c) *The governing board may authorize or request the budget officer to submit a budget containing recommended appropriations in excess of estimated revenues. If this is done, the budget officer shall present the appropriations recommendations in a manner that will reveal for the governing board the nature of the activities supported by the expenditures that exceed estimated revenues.*

§ 159-12. Filing and publication of the budget; budget hearings.

(a) *On the same day that he submits the budget to the governing board, the budget officer shall file a copy of it in the office of the clerk to the board where it shall remain available for public inspection until the budget ordinance is adopted. The clerk shall make a copy of the budget available to all news media in the county. He shall also publish a statement that the budget has been submitted to the governing board, and is available for public inspection in the office of the clerk to the board. The statement shall also give notice of the time and place of the budget hearing required by subsection (b) of this section.*

(b) *Before adopting the budget ordinance, the board shall hold a public hearing at which time any persons who wish to be heard on the budget may appear. (1927, c. 146, s. 7; 1955, cc. 698, 724; 1971, c. 780, s. 1; 2020-3, s. 4.27(a).)*

§ 159-13. The budget ordinance; form, adoption, limitations, tax levy, filing.

(a) *Not earlier than 10 days after the day the budget is presented to the board and not later than July 1, the governing board shall adopt a budget ordinance making appropriations and levying taxes for the budget year in such sums as the board may consider sufficient and proper, whether greater or less than the sums recommended in the budget. The budget ordinance shall authorize all financial transactions of the local government or public authority except the following: ...*

(b) ...

(c) *The budget ordinance of a local government shall levy taxes on property at rates that will produce the revenue necessary to balance appropriations and revenues, after taking into account the estimated percentage of the levy that will not be collected during the fiscal year. The budget ordinance of a public authority shall be balanced so that appropriations do not exceed revenues.*

§ 159-13.2. Project ordinances.

(a) ...

(1) ...

(2) *"Grant project" means a project financed in whole or in part by revenues received from the federal and/or State government or other grant or settlement funds for operating or capital purposes as defined by the grant contract.*

- (b) *Alternative Budget Methods.* – A local government or public authority may, in its discretion, authorize and budget for a capital project or a grant project either in its annual budget ordinance or in a project ordinance adopted pursuant to this section.

Per Section 159-11(b) of the North Carolina General Statutes, the 2023-2024 Fiscal Year Budget for the Town of Marshville is submitted for your consideration. This budget will serve as the town's principal operating guide and a financial and planning tool for the coming year. A town's budget should be the chief financial document that guides that Municipality.

Thanks to the Mayor, the Town Council, and the staff for their assistance in preparing this budget. This budget and budget message comply with the law prescribed in the North Carolina General Statutes Chapter 159, with one exception that will be addressed later in this message under the "Revenue-Tax Rate-User Fees" subheading.

This budget has no substantial format changes, and this budget message follows the same format as in previous years. Reporting remains the same. Projected sales tax revenue and Powell bill revenue are mainly based on the North Carolina League of Municipalities published report entitled "Projections for State-Collected Local Government Tax Revenue FY 22-23 & FY 23-24." The complete information can be found on our website for your reference. Department definitions remain the same, and each department's assigned number of employees remained the same as last year. It should be noted that departmental duties are occasionally shifted.

This budget uses a 98.25% collection rate for ad valorem taxes income, up 3.25% from last year. The inflation rate continues to be above 10%, though it is down from one year ago. The town of Marshville, like many employers, continues to need help with hiring new employees. Because we value our staff and understand the importance of retaining trained personnel, we have budgeted a 5% cost of living increase in hopes of keeping personnel instead of hiring and training new personnel across all departments. This budget anticipates at least two retirees this fiscal year, which must be addressed.

The health benefits plan that we currently provide for the employees is superior to what is in the current market, and thus, we kept the coverage we now have. The budget reflects a modest increase in health benefit costs our insurance carriers provide.

As allowed by GS 159-11(c), this budget has allocated monies from the Fund Balance for the General Fund and the Enterprise Fund. This is a general practice in municipal government. As a result, I am submitting a balanced budget as required by the North Carolina Local Government Budget and Fiscal Control Act. The following table illustrates the amount of the encumbered funds last fiscal year and this year.

2022-2023 OPERATING BUDGET				
	REVENUES	MINUS EXPENSES	FUND BALANCE	
GENERAL FUND	\$1,910,617	\$2,558,694	-\$648,077	ENCUMBERED
ENTERPRISE FUND	\$1,964,410	\$2,395,084	-\$430,674	ENCUMBERED
TOTAL	\$3,875,027	\$4,953,778	-\$1,078,751	ENCUMBERED
2023-2024 OPERATING BUDGET				
	REVENUES	MINUS EXPENSES	FUND BALANCE	
GENERAL FUND	\$2,615,635	\$3,723,175	-\$1,107,540	ENCUMBERED
ENTERPRISE FUND	\$2,247,723	\$2,839,533	-\$591,810	ENCUMBERED
TOTAL	\$4,863,358	\$6,562,708	-1,699,350	ENCUMBERED

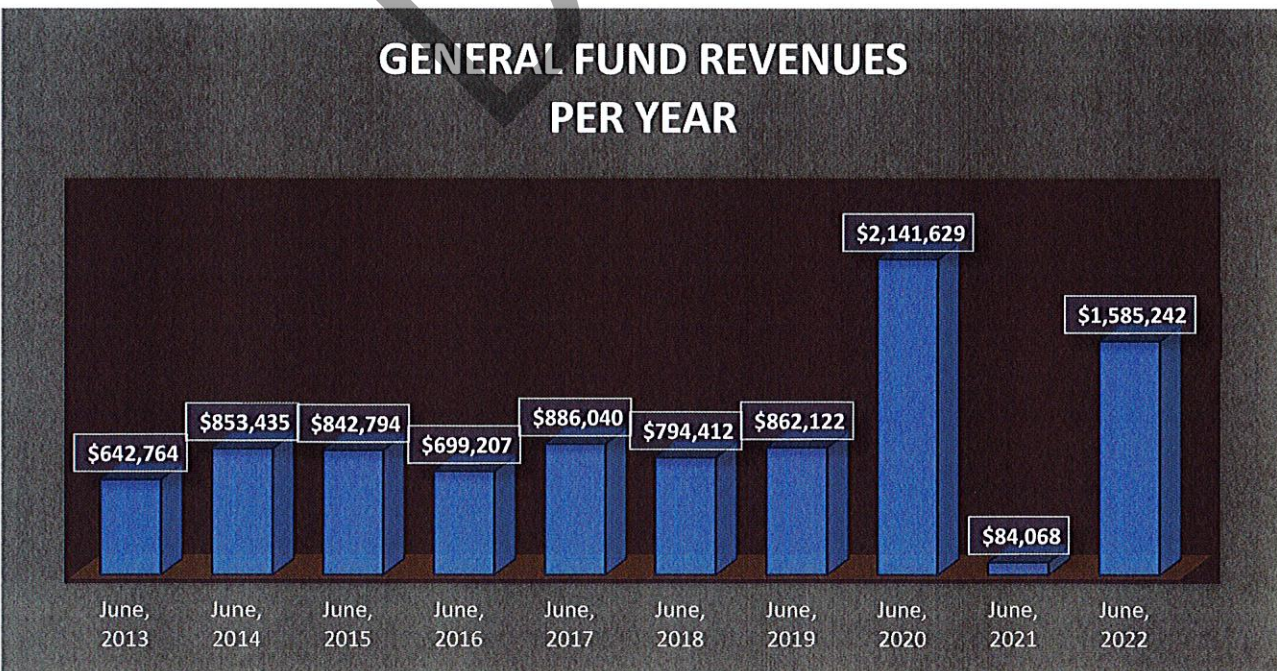

The table reflects an overall increase in Encumbered Fund Balance from last year by 57.5%. Staff will continue working towards productive municipal operations without appropriating funds from the fund balance. \$1,078,751 was encumbered the previous fiscal year; however, not only did we not use the encumbered amount, our fund

balance increased. Though an increased amount is encumbered this fiscal year, we anticipate using only a small amount of those funds, if any.

The following chart is submitted for your consideration. This chart shows the unrestricted funds in our Fund Balance over the last ten years (the general and enterprise funds). These amounts can be found in our annual audits conducted by an independent auditing firm each year. As reflected in the chart, the fluctuation in the total amount of unrestricted funds ranges from \$2,104,099 in June 2013 to \$4,545,678 in June 2023.

Drilling down into the numbers and considering only the General Fund (as reflected in the chart below), the same pattern holds except for June 2021. That fund dip was explained in last year's budget message and (as seen by the fund balance in June of 2022) has been corrected.

The town has been fortunate to receive some grant funding this past year; other grant applications are pending. Only grant funds we have already signed contracts for, and their subsequent matching funds, are accounted for in this budget. As other grants are received, budget amendments will be necessary to account for those funds in our budget. Per GS 159-13.2(a)(2b), I have chosen to account for those grants within the budget ordinance instead of a separate grant ordinance.

The town's financial health has improved over the past ten years (\$2.1 million to \$4.5 million). This budget's focus is to continue positioning Marshville for its future. Repeating this statement from last year: "As a town, we stand on the cusp of tremendous opportunity; however, we must be proactive in positioning ourselves for those opportunities." Being proactive means that we all (Mayor, Council, Staff, and Citizens) must accept that change is coming to Marshville. We can accept that fact and work together to try and shape that change into a positive experience that Marshville can be proud of, or we can resist that fact and watch as change happens to us rather than for us. Being proactive means we may have to use some of our fund balance, or we may have to pay more in taxes to attract businesses and people to help shoulder the burden of tax payments.

Present sacrifice is necessary to realize future rewards. That belief is reflected in this budget. .

General Fund

The General Fund accounts for resources traditionally associated with a government that are not legally required or by sound financial management to be considered in another fund. This fund is established at the inception of a government and exists throughout the government's life. Expenditures are divided into functional departments to understand the costs of providing certain services. That department pays personnel assigned to specific functions.

Revenues, Tax Rate, and User Fees

This budget shows a total expenditure amount for the General Fund of \$3,723,175. The North Carolina General Statute (GS159-13(c)) states that *"the local government shall levy taxes on property at rates that will produce the revenue necessary to balance appropriations and revenues."* The tax rate necessary to comply with GS 159-13(c) would be \$0.985 per \$100 of valuation (or \$1.00 per \$100 of valuation. "Why is such a high tax rate necessary," you may ask. The answer is simple. We have the lowest valuation of residential property in the County. The chart below compares our assessed property value to that of other municipalities in the County.

Municipality	2020	2021	2023	1 PENNY
INDIAN TRAIL	\$ 2,659,479,404	\$ 3,918,785,284		\$ 391,879
WEDDINGTON	\$ 2,281,107,808	\$ 3,049,316,278		\$ 304,932
WAXHAW	\$ 1,829,906,785	\$ 2,528,896,258		\$ 252,890
MONROE	\$ 1,347,905,316	\$ 2,129,713,516		\$ 212,971
STALLINGS	\$ 1,326,310,177	\$ 1,859,910,445		\$ 185,991
MARVIN	\$ 1,130,753,346	\$ 1,421,195,950		\$ 142,120
WESLEY CHAPEL	\$ 956,220,848	\$ 1,038,382,079		\$ 103,838
UNIONVILLE	\$ 580,620,434	\$ 783,529,366		\$ 78,353
FAIRVIEW	\$ 439,079,901	\$ 598,075,562		\$ 59,808
MINERAL SPRINGS	\$ 249,717,383	\$ 354,687,772		\$ 35,469
LAKE PARK	\$ 225,511,171	\$ 331,939,479		\$ 33,194
HEMBY BRIDGE	\$ 90,277,977	\$ 142,698,631		\$ 14,270
WINGATE	\$ 90,748,269	\$ 137,170,637		\$ 13,717
MARSHVILLE	\$ 70,724,094	\$ 104,659,674		\$ 10,466

Approximate Revenue Received per 1 penny of tax

No one suggests that our tax rate be increased to \$1.00 per \$100 of valuation, which begs the question, "Is there another solution." The more reliable solution is to increase the valuation of the property in Marshville by recruiting commercial real estate and allowing more residential real estate with higher values. For example, according to Union County GIS, the Quik Trip located at the corner of Morgan Mill Rd and Roosevelt Blvd is valued at \$3,433,600. That property alone would generate \$16,874 per year at our current tax rate. Two hundred new homes valued at \$300,000 each would generate \$249,000 annually.

\$0.49 per \$100.00 of assessed value continues to be one of the higher tax rates in the County. As the chart above shows, Marshville's real estate has the most negligible value of any municipality in the County. As a result, Marshville receives the most negligible revenue for each penny of the tax rate assessed. That is why Marshville has to have a higher tax rate now. As we attract more residents and businesses of increased value, we can reduce our tax rate at some point. In the meantime, we must make the sacrifices to provide the infrastructure, improve the quality of life, and, above all, be open-minded to positive change so that we might attract needed growth.

This budget considers all of those factors, but in light of last fiscal year's high rate of collections, no tax increase is being proposed for this fiscal year.

The police department remains the town's most significant expense, accounting for 27% of the budgeted costs, common among municipalities that maintain a police force.

General Fund Expenses

Our planning and subdivision fees have increased moderately, as advised by our land use administrator and senior planner. Our solid waste collection fees increased due to an increase from our provider. This budget proposes a very moderate 2.86% increase in our water rate but no increase in our sewer rate.

The most significant change in our fee structure is the establishment of the Special Event fees. The Special Event Application and Process is necessary for several reasons. #1) there has been an increased interest in organizations wanting to attend Marshville and have events. #2) there is a need for the town to protect itself from various liabilities as a result of these events. #3) Marshville needs to govern itself according to best practices surrounding Special Events, as do other jurisdictions throughout the state.

Any increases in user fees (including those for the Park) are necessary for the town to continue to provide that service. The increases will also help offset the cost of identifying, capturing, and prosecuting those who choose to vandalize and destroy the taxpayer's property.

Department Expenditures

Governing Body A decrease of 3.37%.

General Government An increase of 11.03%, due mainly to the need for added security in the town hall and additional meetings between the Town Council and Community members.

Community Development An increase of 147.76%, is primarily due to downtown revitalization efforts.

Public Buildings	A decrease of 49.87%.
Police	An increase of 6.54%.
Street & Highways	An increase of 33.26%, due mainly to the need for improvements in street lighting.
Powell Bill	An increase of 9.99%.
Sanitation	A decrease of 0.21%.
Parks & Recreation	An increase of 32.36%, is primarily due to anticipated improvements at the Lake.

Enterprise Fund

In addition to the General Fund covering all typical government operations, the Town of Marshville operates two enterprises: the water and sewer systems. These two enterprises are managed as businesses. Revenues and expenditures are accounted for separately from other Town functions, and rates are established to cover all enterprise expenses. This budget reflects continued efforts to identify and make needed repairs to the water and sewer system. The chart below shows this fiscal year's 18.31% increase in Enterprise Operations.

Revenues & Rates

The Town of Marshville purchases all its water from Anson County. Our water is metered at the county line, and the town pays Anson County based on readings. Anson County sets its water rates to cover the cost of producing and maintaining its water system that delivers the water to the county line. The rates Anson County charges only cover the cost of getting the water to the Anson County Line. The Town of Marshville is responsible for maintaining the water pipes, pumps, valves, and hydrants that bring the water from Anson to Marshville. Anson and Union charge Marshville to pump and treat the town's wastewater. The public sewer system users pay those costs to maintain the 15+ miles of pipes and equipment that Marshville owns.

The costs incurred from operating the water and sewer system are paid by the revenue generated by the users of that system. Unlike General Fund operations, the funding of the water and sewer system does not rely on taxes but rather upon the fees established for the use of the system. Because the town has no viable source of water to draw from or discharge into, it relies on Anson and Union Counties for water and wastewater treatment. Because the town does not own these operations, it cannot control treatment costs and must pay both counties for this service. Increased costs from the counties and expenses for maintaining our distribution system are paid through rates and fees.

In addition to maintaining our current system, our sustainability lies in acquiring new customers and spreading the cost among more people. To grow and prosper, we must find a way to increase our capacity to offer new businesses and residents. Additional charges will be involved in expanding our sewer capacity, which we must bear.

For those reasons and those listed earlier in this message, this budget proposes a modest increase of 2.86% in water rates this year and no increase in sewer rates. The town has engaged an engineering company to conduct an Asset Inventory and Assessment of our water system. Future budgets will follow the recommendations of that study.

Operations Expenditures

Water Operations

This department shows a 19.45% increase from last year.

Sewer Operations

Sewer Operations show a 17.44% increase.

Respectfully submitted,

FRANKLIN D. DEESE, Budget Officer

FY 2023 - 2024 Budget Summary

10 - General Fund Expenditures					
Department		FY 2022-2023 Budget	FY 2023-2024 Proposed	Increase (Decrease)	% Increase (Decrease)
